#### **India Launches First Ferret Research Facility in Haryana**

India has inaugurated its first Ferret Research Facility at the Translational Health Science and Technology Institute (THSTI) in Faridabad, Haryana, marking a major milestone in the country's biomedical research efforts.

The facility aims to enhance research in infectious and non-communicable diseases, with a focus on vaccine and therapeutic development.

Rajesh Gokhale, Director General of the Biotechnology Research and Innovation Council, led the inauguration, emphasizing the facility's role in improving India's preparedness for emerging diseases.

The facility will focus on critical studies for vaccine and therapeutic development, especially for respiratory diseases like influenza and coronaviruses.

Ferrets are an ideal model for respiratory disease research, placing India among a select group of nations with this capability.

The research will enhance pandemic preparedness and contribute to the development of treatments for infectious diseases.

## Indian Army Renames Kolkata's Fort William to 'Vijay Durg'

The Indian Army made a significant move towards decolonization by renaming Kolkata's Fort William to 'Vijay Durg'.

This decision reflects India's commitment to honoring its indigenous military history while removing colonial imprints.

The new name is inspired by Vijaydurg Fort in Maharashtra, a stronghold under Chhatrapati Shivaji Maharaj, and aligns with the government's push to eliminate colonial-era symbols.

It served as a key British military base during colonial rule and became the Eastern Command headquarters post-independence.

The name symbolizes India's indigenous military heritage, representing victory and resilience of the Indian armed forces.

This renaming is in line with Prime Minister Narendra Modi's initiative to remove colonial names and traditions.
