INTERNATIONAL NEWS

World Heritage Glaciers to Disappear by 2050

- According to new UNESCO data, by 2050 one-third of the World's Heritage Sites of Glaciers will disappear.
- The study, conducted by UNESCO in partnership with the IUCN, shows that these glaciers have been shrinking at an accelerated rate since 2000 due to CO2 emissions and higher temperatures.
- The report highlights the accelerated melting of glaciers regardless of efforts to limit temperature rise.
- The study suggests that the only effective solution to this environmental threat is to reduce carbon dioxide emissions as quickly as possible.

BANKING

MUFG Bank Partners with M1xchange

- MUFG Bank has partnered with M1xchange to facilitate digital invoice financing for the bank's clients.
- Under M1xchange's TReDS (Trade Receivables Discounting System), MSME suppliers get early funding for their receivables under a bidding mechanism, and this is funded by MUFG Bank, which takes on the credit risk of the corporate buyers.
- This collaboration allows MUFG Bank to leverage the digital ecosystem established by M1xchange thereby enhancing the efficiency of its client services.
- The collaboration with M1xchange demonstrates MUFG's commitment to meeting the growing trade finance needs of the industry.
