NATIONAL NEWS

India's First Oil Palm Processing Unit

India's first integrated oil palm processing unit in Arunachal Pradesh started operation by one of India's largest oil palm development companies, 3F Oil Palm.

A new factory has been established in the Lower Dibang Valley district of India's northeast state.

This factory is part of Mission Palm Oil and is India's first oil palm factory under NMEO-OP.

The government's focus on Mission Palm Oil, with a special focus on the Northeast, aims to achieve self-reliance in edible oils and empower farmers to boost their income. The demand for edible oils is increasing and palm oil has become essential in ensuring the nation's food security.

The commencement of operations of the country's first oil palm processing unit aligns with encouraging domestic oil seed production.

The Northeast region has enormous potential for palm oil production, and the government plans to invest 1100 crores in Assam and Arunachal Pradesh by 2030, creating jobs for 1,700 people.

The Indian government launched the National Mission for Edible Oils - Oil Palm (NMEO-OP) in August 2021.

IMPORTANT DAYS

Ordnance Factories Day

Ordnance Factories Day 2024 is observed on the 18th March

The East India Company of England, to increase their economic interest and political hold, considered manufacturing military hardware as a vital element.

The British authorities in 1775 established a Board of Ordnance in Fort William, Kolkata, which marks the official beginning of the Army Ordnance in India.

They further set up a gunpowder factory in 1787 at Ishapore, which started production in 1791.

In 1801, the British established a Gun Carriage Agency at Cossipore, Kolkata and production started on March 18, 1802.

This heralded the first industrial establishment of Ordnance Factories in India and they continue to operate to date.
