UIDAI Launches Aadhaar-Based Authentication System For Cooperative Banks Across India

The Unique Identification Authority of India (UIDAI) has implemented a new framework to onboard Cooperative Banks to provide Aadhaar-based authentication services.

This is a major step toward promoting last-mile banking and digital inclusion.

The framework was developed in consultation with the Ministry of Cooperation, NABARD, and NPCI.

It will cover all 34 State Cooperative Banks (SCBs) and 352 District Central Cooperative Banks (DCCBs) across India.

To simplify the process, only the State Cooperative Banks will be registered with UIDAI as Authentication User Agencies (AUAs) and eKYC User Agencies (KUAs).

The DCCBs will then be able to use the Aadhaar authentication infrastructure of their respective SCBs.

This framework will empower these cooperative banks to offer services such as the Aadhaar Enabled Payment System (AePS) and the Aadhaar Payment Bridge (APB).

The AePS allows for basic banking transactions using Aadhaar, while the APB is used for direct benefit transfers (DBT) of government subsidies.

Indian Navy Commissions Stealth Frigates INS Udaygiri and INS Himgiri

In a major step toward achieving naval self-reliance, the Indian Navy has simultaneously commissioned two Project 17A multi-mission stealth frigates, INS Udaygiri and INS Himgiri.

The commissioning ceremony, presided over by Defence Minister Rajnath Singh, took place at Visakhapatnam on August 26, 2025.

This is the first time in the Navy's history that two such major frontline warships, built by different shipyards, were commissioned at the same time.

INS Udaygiri, built by Mazagon Dock Shipbuilders Ltd. (MDL) in Mumbai, is the 100th ship designed in-house by the Indian Navy's Warship Design Bureau (WDB), marking a significant milestone in India's indigenous warship design capabilities.

INS Himgiri was constructed by Garden Reach Shipbuilders & Engineers (GRSE) in Kolkata.

Both frigates are part of the Project 17A series, which are a follow-on to the Project 17 (Shivalik class) frigates.

These new ships feature enhanced stealth capabilities and improved sensor and weapon systems.

The frigates are equipped with a suite of advanced indigenous weapons and sensors, including BrahMos supersonic cruise missiles and Barak-8 surface-to-air missiles, with an indigenous content of about 75%.

The ships were named after their illustrious predecessors, the former INS Udaygiri (1976-2007) and INS Himgiri (1974-2005), linking India's naval heritage with its modern aspirations.

Upon commissioning, both frigates will join the Eastern Fleet under the Eastern Naval Command to secure maritime interests in the Bay of Bengal and the larger Indian Ocean region.
