Framework for small value digital payments in offline mode

- The **Reserve Bank of India** has placed on its website the Framework for facilitating small value digital payments in offline mode.
- The framework incorporates the feedback received from the pilot experiments on offline transactions conducted in different parts of the country during the period from **September 2020 to June 2021.**
- An offline digital payment means a transaction which does not require internet or telecom connectivity.
- Under this new framework, such payments can be carried out **face-to-face (proximity mode)** using any channel or instrument like **cards, wallets, mobile devices, etc.**
- Such transactions would not require an **Additional Factor of Authentication (AFA).** Since the transactions are offline, alerts (by way of SMS and / or e-mail) will be received by the customer after a time lag.
- Transactions are subject to a limit of **Rs 200** per transaction and an overall limit of **RS 2000** for all transactions until balance in the account is replenished. Balance replenishment can only occur in an on-line mode.
- Offline mode of payment can be enabled only after obtaining specific consent of the customer.

Banks retain D-SIB's

- The Reserve Bank of India ahs retained and identifies **SBI, ICICI bank, HDFC** bank to continue as **Domestic Systemically Important Banks (D-SIBs)** under the same bucketing structure as in the 2020 list.
- The additional **Common Equity Tier 1 (CET1)** requirement for D-SIBs was phased-in from **April 1, 2016** and became fully effective from **April 1, 2019**.
- The Reserve Bank had announced **SBI and ICICI Bank** as D-SIBs in **2015 and 2016** respectivly.
- HDFC Bank was also classified as a D-SIB, along with SBI and ICICI Bank, Based on data collected from banks as on March 31, 2017.
- The current update is based on the data collected from banks as on March 31, 2021.
